

What's Your Guess?

Zygote	
Embryo	
Fetus	
Pregnant	
Womb	
Due Date	
Trimester	
Obstetrician	
Quickening	
Umbilical Cord	
Due Date	

What's Your Guess?

Zygote	Single cell; start of life (fertilized egg)
Embryo	Organism in the early stage of development
Fetus	Unborn baby (10 weeks until birth)
Pregnant	A woman who is going to have a baby
Womb	The part of the mother's body where the baby develops (lower part of the stomach)
Due Date	The date the baby is expected to be born
Trimester	How pregnancy is divided; one trimester is equal to 13 weeks
Obstetrician	The specialist (doctor) who helps deliver babies
Quickening	The first movements of the fetus that are felt by the mother
Umbilical Cord	The cord that carries blood, oxygen, and nutrients to the fetus.
Labor	Childbirth; when the mother gives birth to the baby
